Key Benefits

PayNearMe mortgage servicers get the latest payment technology and features, delivered weekly via zero downtime maintenance and releases.

Make Payments and Disbursements Easy

- Facilitate flexible payments, with the ability to easily set up recurring payments and accept one-time payments
- Use a flexible fee structure to drive targeted consumer behavior
- Easily disburse escrow overages and payoff overages, providing consumers their funds in under 30 minutes
- Collect loss mitigation payments with ease

Provide the Right Messages at the Right Time

- Schedule automated, configurable notifications via text, email or push notifications to send payment reminders and other key messages directly to customers
- Support one or multiple brands with white-labeling to drive seamless, consistent payment experiences no matter how or where customers choose to pay
- Offer the right payment options at the right time with configurable payment rules and custom fields

Encourage Customers to Self-Serve

- Send personalized payment links via text, email, mobile wallet—or a QR code on your print or electronic bill—with no need for customers to log in, download an app or remember an account number
- Reduce PCI compliance scope and improve customer satisfaction through agent-initiated payments, without the need for customers to speak to an agent or relay payment information over the phone
- Reduce inbound service calls with self-service tools including IVR, push to text, autopay, payment reminders and more
