

PayNearMe for Sports Betting & iGaming

PayNearMe provides sports betting and iGaming operators with the easiest, most reliable way to accept deposits. Enable players to fund their online gaming accounts using cards, ACH, Apple Pay, Google Pay and cash. Or, use PayNearMe Disbursements to provide near-instant cash-outs to increase customer satisfaction.

Get the convenience of consolidating multiple deposit types with a single vendor—one integration, one contract and one daily reconciliation file.

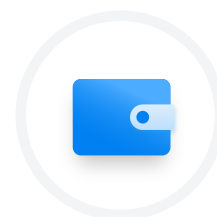

PayNearMe processes cash deposits for over 95% of legal iGaming operators across the U.S.

Key Benefits

With PayNearMe, sports betting and iGaming organizations can simplify the deposits experience to satisfy player preference, decrease drop-offs and increase share of wallet.

Consolidate Deposit Types

- Give players more deposit choices, including: cards, ACH, cash and Apple Pay and Google Pay
- Simplify reconciliation, vendor management and integration by moving all key funding methods to one vendor
- Get to market quickly with the payment types you need most

Improve Player Experience

- Use PayNearMe's intuitive, modern deposit experience to improve the customer experience and reduce player churn
- Send personalized deposit links via text, email or mobile wallet—making it easy for players to deposit funds in as little as one click
- Send players near-instant digital payouts when they're ready to cash out

Easily Accept Cash

- Enable cash deposits at over 24,000 nationwide retail locations, including participating 7-Eleven and Family Dollar stores
- Digitize the cash experience to increase player anonymity and receive guaranteed funds
- Provide instant receipts to players to verify each cash transaction
